DETAILED ACTION

Election/Restrictions

1. Claims 40-51 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Applicant timely traversed the restriction (election) requirement in the reply filed on March 22, 2006.

2. Applicant's election with traverse of Claims 40-51 in the reply filed on March 22, 2006 is acknowledged. The traversal is on the ground(s) that there is no undue burden on the examiner and that the each of the elements in the respective combinations are found in the subcombinations. This is not found persuasive because the examiner only considers the independent claims when making a combination/ subcombination restriction requirement, therefore the independent claims as argued by the applicant have no bearing.

The requirement is still deemed proper and is therefore made FINAL.

Claim Objections

3. Claim 17 is objected to because of the following informalities: It appears "a disc tower" in line 2, should read --and disc tower--. Appropriate correction is required.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 3651

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 1-15, 17, 18, 20-23, 30-33, 35, and 37-39 are rejected under 35 U.S.C. 102(e) as being anticipated by Hammock et al. USP 6,793,062.

See the attached marked up drawing figure 1 of Hammock et al. depicting the claimed features.

Allowable Subject Matter

6. Claims 16, 19, 24-29, 34, and 36 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

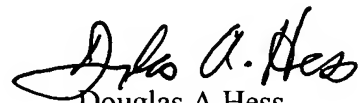

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
